1. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 17, "the ring of peel" lacks antecedent basis.

In claim 2, "the required thickness" lacks antecedent basis.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Bingham.

Bingham discloses a process and apparatus wherein pineapple is processed by cutting and removing the ends of said pineapple, slicing the remaining pineapple into disc slices, separating same according to size, and removing the ring of skin with each slice. See Abstract, Figures, etc.

2. Claims 2-16 and 18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims. More specifically, the prior art of record does not disclose nor teach the particular device and method as claimed (see claim 2) including the use of a two conveyor system is used for cutting the ends of the fruit.
